

# **Why Lumical Technologies Group Inc ?**

When selecting the company you will trust with your business would you not want to pick the most innovative, creative, respected, established and environmentally-friendly one you could find?

- We have been in business continually for 25 years.
- We have over 35 years specific experience in the design and installation of landscape lighting systems, including LED and solar.
- We were in the low voltage landscape lighting business when there were only a handful of suppliers available in this market (and only 2 others in our regional market).
- We provided our clients with a full “No Hassle” Lifetime Warranty many years before any other company attempted to copy our lead.
- Even to this day most vendors supply a 5 year warranty, a few supply 10 years and only a very small number provide a lifetime warranty – but in most cases you need to read the fine print!
- We provided our clients with lighting solutions for most aspects of their lifestyle lighting requirements, be it – marine, underwater, dock, architectural, commercial, residential, monument and art, fountains, security and safety, both low and high voltage, LED and solar systems years ahead of our competition.
- We treat our clients so well and so fairly that we have a track record of retaining 99% of our first-time clients for more than 10 years and rarely – if ever - lose an existing client to a competitor.
- We offer a 110% refund if client is not 100% satisfied with the installation.
- The technicians who manage your installation are fully insured, highly trained, skilled artisans.
- We have a network of trusted associates throughout the US who are able to help you in your installation if you are out-of-State (we are licensed in Florida) if you require any assistance with the installation we design for you.
- For those of our clients who wish to do their own installations, our lighting system kits come with a custom plan and all the equipment and materials you will need. All you require is some basic tools and the ability to follow instructions.
